

'DELICIOUS' IS NOW EASIER THAN EVER!

NEW

OIL ONLY™ Spray System

The first BOV/Continuous Spray Dispensing System capable of spraying 100% pure cooking oils.

There is no longer the need for blending agents, gas propellants or any of the many other additives found in conventional aerosol cooking sprays. **Oil Only™ Spray System** prolongs product shelf life because the oil is isolated in a four-layer airtight pouch, eliminating possibility of oxidation. Oils remain fresh from the day packaged until the day used.

With nothing but pure oils —and maybe some flavorings like butter—there simply is no healthier way to spray cooking oils. Consumers prefer naturally fresh-tasting products. By using the B.O.V. Solutions **Oil Only™ Spray System** with Triple Action Dispensing, 'Delicious' is now easier than ever!
