

Quality AND Value in a Continuous Spray Dispensing System

Positively
100% Pure
& Natural

OIL ONLY™

The first BOV/Continuous Spray Dispensing System capable of spraying 100% pure cooking oils.

Spray
System

There is no longer the need for blending agents, gas propellants or any of the many other additives found in conventional aerosol cooking sprays. Oil Only™ Spray System prolongs product shelf life because the oil is isolated in a four-layer airtight pouch, eliminating possibility of oxidation. Oils remain fresh from the day packaged until the day used.

Greenest of Green Dispensing

- Winner of 2010 Sustainability Award
